PAPERS IN CONNECTION WITH THE BUBONIC PLAGUE.

WEEKLY REPORT OF PLAGUE IN THE MYSORE STATE, EXCLUDING THE CIVIL AND MILITARY STATION OF BANGALORE, FOR THE WEEK ENDING 5TH MAY 1899.

The number of indigenous cases in the whole Province decreased from 106 to 97, owing mainly to the decrease in the Gold Fields, while the number of places in which indigenous cases occurred increased by 4, due to some sporadic cases in the District of Bangalore.

	Total No of cases.	Total No. of places.
For week ending 14th April 1899 ...	108	24
For week ending 21st April 1899 ...	71	25
For week ending 28th April 1899 ...	106	21
For week ending 5th May 1899 ...	97	25

Bangalore City.

II. The following are the figures in the City up to date :—

	Plague cases.	Plague deaths.	Total mortality.	Normal recorded mortality in the same period.
From 12th August 1898 to 7th April 1899 ...	3,335	2,656	7,278	902
For week ending 14th April 1899	...	...	32	35
For week ending 21st April 1899	...	...	55	35
For week ending 28th April 1899	...	...	34	35
For week ending 5th May 1899	...	...	40	30

The City has now been free for 2 months continuously of indigenous plague, and no case of any sort has occurred in it for the past 5 weeks.

During the week, the number of arrivals was 1,806 against 1,822 in the previous week, the number of departures 1,008 as against 1,202, and the total population of the City at the close of the week was estimated at 63,549 as against 62,739 at the end of the previous week, showing a net increase of 810.

III. The figures for the Health and Segregation Camps were as follows :—

	Remaining.	Admitted.	Discharged.	Developed plague.	Remaining.
Health Camps ...	612	...	23	...	589
Segregation Camps	...	6	...	...	6

IV. During the week under report there were 185 first, and 2 second inoculations, bringing the totals to 34,575 and 1,387, respectively.

No inoculated person was attacked, during the week, with plague.

V. There were no patients in the Hospital.

VI. The number of houses disinfected was 171 as against 189 in the previous week; of these 101 were deserted ones, 12 were plague [illegible]ected and 58 were locked-up ones, opened under Government Notification No. 5235—P. G. 21-[illegible], dated 15th October 1898.

VII. During the week under report 89 houses were permitted to be occupied. No charge was levied for disinfecting 30 houses, 3 houses were disinfected by the owners themselves and the charges levied on the remaining 56 houses amounted to Rs. 91-8-0.

VIII. The cost of road-work and earth-work in the Basavangudi and Malleswaram extensions, carried out during the week, was Rs. 3,174, against Rs. 5,169, bringing the total amount spent up to date to Rs. 66,773.

IX. The number of infected houses and houses unfit for human habitation demolished during the week was 5, the total number of houses demolished from commencement being 510. The number of houses removed for opening out the City was 14, the number so removed from the beginning being 570.

X. During the week, 3 persons were put on their trial for violating the Epidemic Diseases Regulation, against 6 during the previous week; all were convicted and fined in sums varying from 1 to Rs. 2.

XI. During the week 569 in-coming passengers, or a daily average of 81 persons were disinfected with their effects at the City [illegible] Station.

Myso[illegible]de Bangalore.

XII. The accompanying week[illegible] the state of the epidemic in the Province. During the week under report, in t[illegible]galore and Mysore there was an increase of cases, while there was a decreas[illegible]lar and Kolar Gold Fields. There were no cases in either the town or distr[illegible]week and as the former has now had no case of any sort for the past 1[illegible] free and removed from the list of infected areas.

XIII. In the Bangalore d[illegible] number of indigenous cases increased from 1 to 12, one cas[illegible] Dodballapur, Magadi and Closepet, 3 in Nelamangala ta[illegible]se. however, the last mentioned 6 cases are reported b[illegible]ous cases, which have been pronounced by the local Hos[illegible] cases of ordinary fever. The very short intervals at [illegible] to treat them as plague cases.

XIV. In the Kolar dist[illegible] excluding the Gold Fields, the number of indigenous cases decreased from 16 in the previous week, to 6 in the present week, all of which occurred in Kolar Town. The rest of the district including Bowringpet was free.

Kolar Gold Fields.

XV. In the Gold Fields, the number of indigenous cases decreased from 62 to 57. The following statement shows the number of cases and deaths in the several mines for the past 4 weeks :—

No.	Names of places	During the week ending 14th April 1899.				During the week ending 21st April 1899.				During the week ending 28th April 1899.				During the week ending 5th May 1899.				Remarks.

	Total	1	1	47	40	..	..	30	31	1	..	62	41	2	1	57	40	

As expected there has been a considerable decrease in plague in Ooregaum village, Ooregaum mine and Sorakepet, while in Champion Reefs also it seems to have begun to decline. In Tank Block and Nandidrug, however, plague is still on the increase, but the Special Plague Officer reports that the same measure which has proved successful in every other mine, of clearing out infected lines, is being rapidly pushed on, so that here also plague may shortly be expected to subside. The infected villages round the fields showed an improvement. Two new villages, in each of which, coolies working on infected Mines lived, became infected, but, as they are being rapidly evacuated, plague is not likely to continue in them long. The opening out of congested localities in all the villages is being pushed on.

The following statement shows the number of coolies working and the number of huts demolished, erected, etc., in the mining properties during the week :—

Statement of Coolies working in the several Mines of Kolar Gold Fields, Bowringpet taluk, during the week ending 5th May 1899.

Serial No.	Name of Mines.	Daily average No. of coolies working in ordinary times.	Daily average during the week ending 28th April 1899.	During the week ending the 5th May 1899.	No. of huts demolished during the week as infected and insanitary.	No. of huts erected during the week.	No. of huts removed to new sites during the week.	No. of tenements disinfected during the week.	No. of huts erected since the beginning of the outbreak.	No. of huts demolished since the beginning of the outbreak.	No. of huts removed to new sites since the beginning of the outbreak.	No. of tenements made habitable since the beginning of the outbreak.	Remarks.

	Total ...	19,146	14,709	14,873	76	69	10	10	556	1,253	861	251	

There was a slight increase of 164 in the total number of coolies at work, there being during the week 14,873 coolies as against 14,709 in the previous week.

XVI. Tumkur district was free, but one death occurred during the week in Kottagire, Kunigal taluk, of a patient, who had been lingering since the 28th March last.

XVII. In the Mysore district, excluding Mysore City, the number of indigenous cases was 5, as against *0 in the previous week, all these cases occurring in Belkavadi in Malvalli taluk, into which infection is said to have been carried by arrivals from Seringapatam. The rest of the district was free.

Mysore City.

XVIII. In the Mysore City the figures were as follows :—

	Plague cases.	Plague deaths	Total mortality.	Normal recorded mortality during the same period.
For the week ending 14th April 1899 ...	35	40	87	31
For the week ending 21st April 1899 ...	26	18	51	31
For the week ending 28th April 1899 ...	24	19	63	31
For the week ending 5th May 1899 ...	17	16	57	29

There was a decrease of 7 in the number of cases, of 3 in that of deaths and of 6 in the total mortality.

XIX. The total number of arrivals during the week was 2,067 as against 1,611; that of departures 1,315 as against 927 and the total population at the close of the week was 64,695 as against 63,966, showing a net increase of 729.

XX. The figures for the Segregation Camp were as follows :—

	Remaining.	Admitted.	Discharged.	Died.	Remaining.
For the week	12	4	5	...	11
Since commencement	...	590	547	32	11

XXI. There were only three first and no second inoculations during the week, bringing the totals from commencement to 29,887 and 94, respectively. Three inoculated persons were attacked with plague during the week and died, the total number of such persons so attacked being 161, of which 113 died, 46* recovered and 2 are under treatment.

XXII. The Hospital figures were as follows :—

	Remaining.	Admitted.	Discharged.	Died.	Remaining.
For the week ...	*39	...	8	2	29
Since commencement ...	...	258	92	137	29

XXIII. 26 houses were disinfected in the Mysore City during the week, as against 43 in the previous week, the total number of such houses disinfected from the commencement being 2,487.

XXIV. 376 out-going passengers or a daily average of 53 were disinfected at the Mysore City Railway Station.

INSPECTION NOTES OF THE PLAGUE COMMISSIONER IN MYSORE.

MYSORE CITY.

Dated 9th May 1899.

Drove with the Deputy Commissioner and visited the Roman Catholic Church. Father LeTohic represented that his people were too poor to pay for the Segregation Sheds which cost Rs. 400. It was decided that half the cost (Rs. 200) may be met from Plague Funds.

2. Thence went to the Eerangere Plague Camp. There were 24 patients in the Plague Camp and 8 persons in the Contact Camp. The numbers being small, and the epidemic in Mysore being practically at an end, the present establishment could be considerably reduced, and I understand that proposals to effect this are before the Senior Surgeon.

Inspected the trenches near the Camp which were recently filled up. The work is done well. Enquiries may be made if the sites will be taken up for building purposes, and if so, may be allotted into convenient plots and given out to *bona fide* applicants.

10th May 1899.

Inspected in company with the Deputy Commissioner, Chief Plague Officer, Civil Surgeon and Vice-President the Gavimat Camp, which was entirely deserted. The materials of the sheds may, if possible, be sold by public auction, or, if they will not fetch a suitable price, may be presented to the poor for building purposes. If left standing the sheds will become worthless. Next visited the portion of this Camp occupied by the Kahar people. They complained of bad water and said many of them were laid up with fever. They represented that they had disinfected their houses in the City and wished to re-occupy them. The Health Officer should be requested to inspect the houses and grant certificates for re-occupation. These sheds, after being vacated, may be disposed of as above mentioned.

Next proceeded to the Chatnahalli Camp. The thatched sheds here may also be similarly disposed of. In the case of the sheds roofed with corrugated iron, the side tatties may be removed and disposed of, and the skeleton sheds and the iron sheets left standing. The rank vegetation in the compound of the neighbouring house, purchased for plague purposes, should be removed, and a watcher appointed to take care of the building and the adjoining sheds.

Veranna's Lines.—The progress made in the roofing of the houses is satisfactory. The houses may, if possible, be sold by private arrangement, or if there be no applicants, rented out.

I understand that an idea that the locality is lonely and insecure, stands in the way of people occupying the huts. I thought, and the Deputy Commissioner is quite of my opinion, that if the lines in the rear are assigned to the City Police, there will be great demand for the remaining portion of the lines.

It was brought to notice that the Nanjaraj Bahadur Chatram is being occupied by Government servants for long periods to the exclusion of the travelling public, which is objectionable. I would recommend the management being vested in the President of the Municipality, who will see that the Chatram is not made an improper use of.

The Deputy Commissioner had a conference with the Plague Officers, and has promised to send in proposals for effecting reductions in the establishment at an early date.

*. Revised figures.

Statement showing Plague Cases and Deaths (imported as well as indigenous) in the Mysore Province, reported in daily returns to the Plague Commissioner, from 12th August 1898 to week ending Friday, the 5th May 1899.
